

Acronis® Backup & Recovery™ 11 Online

Your offsite datacentre for disaster recovery and data protection.

Acronis Backup & Recovery 11 Online provides an online, remote, secure location so users can store redundant copies of their files and system image backups without having to make the investment in a remote data store. Unlike other online backup services, Acronis Backup & Recovery 11 Online does more than just protect your files. It leverages Acronis' patented Disk Imaging technology and Cloud technology to backup whole systems, including the operating system and applications. It's a cost-effective online subscription service for workstations, servers and virtual machines – you only pay one flat price per machine by set capacity for the online service. Since both Acronis Backup & Recovery 11 Online and Acronis Backup & Recovery 11 are integrated, one console / one management server seamlessly manages all of your backup and recovery efforts regardless of the data's actual location.

Core Features

Online, Cloud-based Data Protection:

- Remote, secure location to store files and system image backups
- Offsite protection against disaster or human error
- No additional hardware investment required

Recover Entire System, Single File or Folder:

- Acronis image-based recoveries give you the granularity you need for any kind of recovery
- Restore files or system images to any server or workstation, eliminating the need to match the underlying hardware

Easy-to-use, Centralized Management:

- Single, integrated application for local and offsite backup and recovery needs
- Common management and control for local and offsite backup and recovery

Flexible Deployment:

- Meet today's data protection challenges and plan for future needs
- Initial disk-based backup and disk-based recovery options are available
- Flexible retention periods depending on your backup and archiving policies
- Integrates with Acronis Backup & Recovery 11 for local backups and fast recoveries

Support for Virtualized Environments:

- Provides agentless backup and recovery of VMware® vSphere® and Microsoft® Hyper-V® to the cloud with one Acronis Backup & Recovery 11 Online subscription
- Stores Virtual Machine backups in Acronis Online Storage
- Virtual Machines are managed the same way as physical machines (including grouping and rules-based management)

High Level of Security:

- User authentication and government approved (AES-256) data encryption secure storage, data access and transmissions

New and Improved Features

NEW! Disaster Recovery and Data Protection in One Unified Solution

Granular restore of individual files from online image backup, so you get the benefits of bare metal restore and backup in one product.

NEW! Disaster Recovery Plans

Automatically generated each time a backup completes, containing step-by-step instructions in case an IT administrator is not available.

NEW! Improved Support for VM Environments:

- Simultaneous backups reduce backup windows
- Single agent backup for multiple VMware ESX/ESXi hosts increases efficiency and simplifies management of backups for VMware® vSphere® configurations
- Support for Cluster Shared Volumes (CSV), which improves availability of Microsoft® Hyper-V® environments

NEW! More Capacity Options

Yearly Subscriptions offered include:

- For Workstation: 250GB, 500GB
- For Server: 1TB, 1.5TB
- For Virtual Machines: 2TB, 3TB or 4TB

Supported Operating Systems

Workstation

Windows 7, Windows Vista
Windows XP Professional SP2+
Windows 2000 Professional SP4+

Servers

Windows 2000/2003/2003 R2/2008
/2008 R2 Server
Windows MultiPoint Server 2010
Workstation operating systems above

Virtual Machines

Microsoft Hyper-V
VMware vSphere 4.0 and 4.1; VMware
ESX Infrastructure 3.5

Ordering Information

Acronis Backup & Recovery 11 Online

For Workstation - 250GB Yearly Subscription

- SKU: TODAJAENS11
- MSRP: \$49.99

For Workstation - 500GB Yearly Subscription

- SKU: TODAJBENS11
- MSRP: \$99.99

For Server -1TB Yearly Subscription

- SKU: TOEAJAENS11
- MSRP: \$499.00

For Server – 1.5TB Yearly Subscription

- SKU: TOEAJBENS11
- MSRP: \$729.00

For Virtual Machines - 2 TB Yearly Subscription

- SKU: TOVAJAENS11
- MSRP: \$1199.00

For Virtual Machines – 3TB Yearly Subscription

- SKU: TOVAJBENS11
- MSRP: \$1799.00

For Virtual Machines – 4TB Yearly Subscription

- SKU: TOVAJCENS11
- MSRP: \$2399.00

Initial Seeding (per Machine, up to 2TB)

- SKU: TOTAKALOS21
- MSRP: \$100.00

Large Scale Recovery (per machine, up to 2TB)

- SKU: TOTAKRLOS11
- MSRP: \$280.00

Acronis® Backup & Recovery™ 11 Online

Your offsite datacentre for disaster recovery and data protection.

Customer Benefits

Data Availability and Application Uptime

Acronis Backup & Recovery 11, provides a total solution with local and online data protection and disaster recovery to meet Recovery Time Objectives (RTO) whether physical, virtual or cloud. Your data is safe with secure, encrypted offsite data backup. Plus our flexible retention policy allows you to determine data retention periods.

True Ease of Use and Manageability

Be productive immediately with the same user-friendly console as Acronis Backup & Recovery 11 – a single management console for local and online protection supporting all workstations, servers and virtual machines across the network. It's so simple to use that even novices can create sophisticated backup and recovery plans.

Lower TCO

It's simply one application and one vendor for physical, virtual, and cloud. No new training is required. Provides the redundancy of a remote data store, but without the high price tag. Plus, you get unlimited virtual machine backup on a host with one license.

Unique Selling Points (USP)

- One application and one vendor for physical, virtual and cloud
- The only solution with integrated local/online backup and recovery for files, images and agentless virtual machine
- One console seamlessly manages both local and online backup and recovery efforts regardless of the data's actual location
- Unlimited virtual machine backup on a host with one license
- So simple to use that even novices can create sophisticated backup and recovery plans
- Flexible retention policy allows the user to determine data retention periods
- Pay one flat price per machine by set capacity for the online service

Market

Acronis Backup & Recovery 11 Online answers the need most businesses have for a lower cost redundant offsite data protection solution. It enables IT organizations to back up and recover data using a secure enterprise-grade cloud solution from Acronis without having to build a dedicated offsite facility or datacenter. Support is included for the mixed virtual and physical computing environments found in a high percentage of today's businesses.

Competitor Products

- Symantec Backup Exec Family
- CA ARCserve Family
- MozyPro
- SOS Online Backup
- i365 Evault
